AUTUMN / WINTER COLLECTION 2021

PRESS RELEASE JULY 2021 – For immediate release

Note from our designer

UNTAMED

It's a bit wild. Very colorful, and slightly daring. It was inspired by the backcountry.

When I designed this collection, life was large and lively and very high energy. And then overnight it all came to a complete standstill. What a humbling year.

Thankfully, we can slowly start to think about life after the pandemic. I, like everyone, wonder what our new lives will be like. Are there wild times on the horizon? Dancing in the streets? I guess time will tell. Perhaps soon we will once again be able to have dinners indoors, with people we have missed. Until that day comes, I am dreaming about staying up late around the table, telling stories with old friends and filling the house with laughter.

Untamed.
