SPRING/SUMMER COLLECTION 2025

PRESS RELEASE JANUARY 2025 - For immediate release

A note from Amy

For January 2025 I wanted to design pieces that would work together with the last collection, still in a slightly moody groove, but perfectly able to stand on their own. It was a fun collection to design and then, boy did we find THE ideal spot to photograph it...it was

PATCHWORK BLISS.

The old wooden barn doors and tiny windows were extraordinary in design and pattern. So, for a mix and match fan like me, this shoot was so exciting, and a little like hitting the jackpot! Mixing the architecture of the location with the designs of the collection created pattern, on pattern, on pattern...I loved everything about it. And, to take pattern play to the next level, checks are back!

I can't wait to see what you all will do with this collection! It's always so inspiring to watch it come to life in so many different ways, all over the world.

Until next time,
Amy

TABLE LINEN

THE BELGIAN TABLE THROW - MAXINE

Like I said, checks are back! This was such a fun collection to design and create, a true pattern play adventure! It's all the things..checks, stripes and fringe, all mixed up together. The main colours are warm oak, rusty brown, gray blue and dusty off-white. But the beauty of checks is that through the crossing of colours, we get so many additional colour nuances. There are so many ways to mix and match here, so I hope everyone really has fun with it! It works beautifully with the matching napkin, and the new Perry napkins, but I can't wait to see how all of you mix it up!

Available in table throw (140x180cm, 140x230cm) and napkin (43x43cm)

Colour: Maxine

100% LI - washed finish

Available in napkin (42x42cm)

Colours: Multistripe, Railroad stripe
