## SPRING/SUMMER COLLECTION 2026

PRESS RELEASE JANUARY 2026 - For immediate release

A note from Amy

I don't think there are many additional words needed, but here's the backstory...

I knew of the BLUE DIAMOND BEAUTY long before I had a plan for 2026. I started dreaming of using this door as a backdrop for a shoot, the minute I laid eyes on it.

Although Spring/Summer 2026 was inspired by Greece: the rugged island landscape, the sea & the beaches, I knew it would be impossible to shoot the collection there, so this was the year for the

## BLUE DIAMOND BEAUTY

The collection is about pattern & texture & colour, and my hope is that it will bring a little bit of joy & happiness to gatherings & homes all around the world.

In addition to the back story, there are a few key points worth highlighting. We had a lot of success with the new category 'Pièce de lin' in Fall 2025, so it's back in a big way this season, with 5 new colourways.

It's lovely to see that everyone is using these pieces in ways that work for them, there are no set rules.

As curtains, table linen, a bed runner, for upholstery... anything goes these days.

We are excited to introduce another new category this season, a striped place mat, in a slightly heavier weight than our Belgian Towel quality, The Marina Stripe. For the past few years we've had only solid placemats, so this is a fun addition. In addition to the Marina Stripe place mat there is also a pièce de lin & a pillow.

As always, these pieces are all meant to mix and match with each other & with previous collections.

There are so many possibilities!

Until next time...

Amy
