FALL - WINTER COLLECTION 2026

PRESS RELEASE JULY 2026 - For immediate release

A note from Amy

This winter we've gone back to black & a little bit tomboy. The collection was inspired by a modern farmhouse vibe, and is about all things racing green & black, combinations which have been on my mind for a long time. It was designed to sit right alongside September 2025 as well as to mix & match with collections of the past. Now I'm so excited to see the fabulous new combinations that people around the world will put together.

FALL/ WINTER 2026 is all here on the pages of this book thanks to Hannes, a great photographer that we have worked with for a long time, who came from

BANGKOK TO BELGIUM

to shoot the collection for us!

Until summer...
Amy

THE BELGIAN TOWEL COLLECTION

THE BELGIAN TOWEL - PILLOW - SIENNA STRIPE

Sienna stripe was designed to be a bridge between the past and the present, connecting Fall/Winter 2025 & 2026. Here sienna-brown, black & charcoal stripes are sitting on a heather grey ground & as usual the towels have fringed edges & a washed finish.

THE BELGIAN TOWEL - PILLOW - RACING GREEN

Racing green was inspired by vintage cars. I love all vintage cars, but, at the moment the dark green ones are on my radar! Black & bone, solid & herringbone, there are all kinds of stripes happening here on the dark green ground. The towels are finished with fringe & a washed finish. The pillow has a zipper closure.

OMAHA STRIPE

Omaha was inspired by the American Midwest, where in the fall a landscape of deep green & blond fields seems to go on for miles on end. That image was in my mind while creating this linen wool combination in a flaxen blond ground with deep green & black stripes at both ends. The stripes are strong & well defined, and the hand is soft & supple. We show it as a coverlet, throw & pillow, but it could also be used to make roman shades or upholstered pieces.
